Aikyam Mentor Coaches

- Mrs. Sowmya shree B.N
- Mrs. Nandini C

Why did the team select this topic?

We selected this topic because we thought it is a very complicated problem and we wanted to educate the people about this problem. And this could also effect the economic condition of the country which is rapidly developing.

What challenge our project have?

The main challenge of our project is to spread awareness among people about gender equality, especially among those who are ignorant and illiterates. Most of the people think that girls cannot do anything, which is the main problem.

How is gender equality a real world problem?

As this problem is occurring in every single part of the world. In a society, everyone has the right to lead his/her life according to their desire, but the society and parents are against this.

For ex:- If a girl wants to do her dream job and earn money, then her parents will not give her the permission to do that, instead they will force her to marry and make a family.

Discussing about the problem

This is how my team & I discussed about the problem

Key question

- Did you ever come accross the gender inequality ?
- What are the problems did you face because of gender inequality ?
- Did you ever discussed with anyone about gender inequality?
- Did you find any solution for this problem.

With whom & what we have discussed

- With Friends:- Everyone, regardless of gender, should have the same opportunities to access quality education, which empowers individuals and in turn improves the society.
- With Relatives:- We should prevent violence against the women and young girls.
- With Parents:- Give respect to the women and encourage them to achieve their dreams.

All the information chart is prepared by our team

Things “To-Do” to solve the problem

- Every one should get the education.
- We should promote female leadership.
- They should give equal pay to equal work.
- End gender based violence.
- Strengthen laws that protect against gender discrimination at work place and in society.
- Encourage men to embrace a broader range of roles, emotions and behavior beyond traditional norms.

Our experiences

How we are planning to make a permanent change?

We plan to make permanent change cause it occurs oftenly, though we can't make big changes, but still we are trying our best. We talked to some people of the village who had a discriminative mindset about gender equality, we tried to make them understand that all are equal.

A small story of one of our group member's mother

This is a story of Lipi's mom Radhika.

Once when Lipi's mom Radhika was telling about her childhood days she said that as it was a old time and people were not fully educated, Lipi's mom Radhika was always told to avoid eye contact with males. This made her to panic when she went to interviews and in most of the interviews the interviewers were men. So she said Lipi "never be afraid to make eye contact with males."

More information about gender equality said by our team

members

* In a society, everyone has the right to lead his/her life according without any discrimination. Providing equal opportunities to both men and women.

* The important of gender equality is for a country's progress and development. When both genders have equal opportunities, society can advance in all aspects.

* Education can help girls compete with boys and create landmark development in their professions.

* When women have equal access to health, society progresses. Gender equality can lead to a better life for women. Women's and girl's face fewer risks when they are valued more.

* Women must be given equal opportunities in every field, irrespective of gender. Moreover, they must also be given equal pay. We can empower women by abolishing child marriage. Various programs must be held where they can be taught skills to fend for themselves in case they face financial crisis.
