

**HIPPOCAMPUS
SCHOOL**

Project Name: Health Care

School Name: HSR (Group 2)

**Members: Mariya Fathima, Sathya Prakash,
Bhargav Krishna, Kiran, Aparna, Shivathmika,
Sai Divya, Yashashwi, Akshaya, Nikith,
Thanvika, Huzef**

**Facilitators: Ms. Habeeba Muskan and Mrs.
Anuradha**

What challenge does your project address?

- Improper facilities of healthcare in rural areas
- Hospitals and clinics are far away from villages
- Not enough trained doctors and nurses
- Emergency services not available 24/7

Why did the team select this topic?

The team selected health care as a topic because many of our team members and their surrounding areas suffer due to this problem.

How is this a real world problem or concern?

Due to untrained doctors many people have lost their lives. Not only is our village suffering from this problem but also many villages have the same problem.

Describe learning or discovery from the interviews or surveys

Students started doing survey deeply in the healthcare problems, they started asking questions to village people, their neighbours, teachers and students.

They came up with the solution that they can organise healthcare camps for free and conduct awareness campaign for the village people.

How did the information you learned motivate you to act in an impactful way?

Students realised that this is a real world problem and it has been deep rooted in the society and needs to be addressed as soon as possible. They were enthusiastic and interested to address this problem.

How are you planning for permanent change?

Students explained the problem and solution to the village leader and other villagers. They suggested that they would organise healthcare camps for the poor people.

How did your team influence others?

All the villagers, teachers and students were excited and happy to see the results of the project.

Community members got motivated and told the students to conduct such type of camps regularly and more frequently .

Other students were also willing to participate in the upcoming camps.
